

PARLOK™

WE IMPROVE ROAD SAFETY
WITH COST EFFECTIVE SOLUTIONS

WHITE LINE SUPRA™

Parlok Supra™ integrated spray-suppression system meets the requirements of directives 91/226/EEC, 2010/19/EU and regulation 109/2011/EU related to the spray-suppression system of certain categories of motor vehicles and their trailers.

No more splashes on the windscreen from the truck ahead!

The Supra spray-suppression system improves road safety by reducing 80% of the water spray formed by the tyre contact to wet road surface and returning it to the road surface. Supra material can be supplied both as integrated and separately to be mounted afterwards to the mudguard.

Homologation Number for the Parlok Supra integrated spray-suppression material is e1*109/2011*109/2011*0018*00

All mudguard sizes are available also with brackets and in colour.

Made for extreme conditions!
