## WHITE LINE™

### FULL-ROUND MUDGUARDS

The original Parlok White Line™ mudguard. Made of PE-HD (high density polyethylene) with a large range of usage temperature and excellent chemical resistance. Strong against wear & tear and light in weight. A wide range of lengths and widths can be made to various requirements.

**All sizes available also with brackets and in colour!**

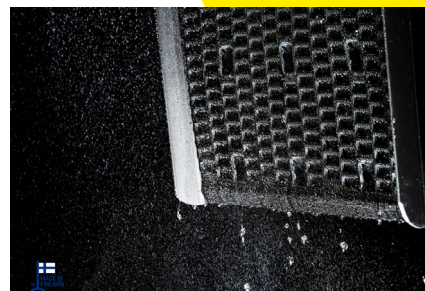

## WHITE LINE™ SUPRA

### NO MORE SPLASHES ON THE WIND SCREEN FROM THE TRUCK AHEAD

Parlok Supra spray-suppression system improves road safety by reducing 80% of the water spray formed by the tyre contact to wet road surface and returning it back to the surface. Supra material can be supplied both as integrated and separately to be mounted afterwards to the mudguard.

**All sizes available also with brackets and in colour!**

## WHITE LINE™ QUARTER

### SOLUTION FOR A TIGHT SPOT

The Parlok White Line™ quarter mudguard is a cost effective solution for installations where a full-length mudguard can't be fitted.

**Many sizes available, please check with the factory!**

## STRAIGHT SPAT

### NEW DESIGN

Parlok provides a wide range of SPAT mudguards, suitable for various needs. The straight SPAT is very easy to fasten with just screws through the top and no additional support is required.

The compatibility especially in the sizes 450x640 and 450x730 to commonly used spat & valance systems in semi-trailers is a great advantage in the after sales business. The products can also be equipped with Supra spray-suppression.

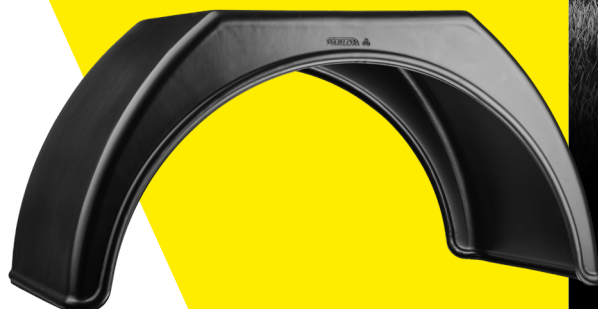

## FLAT TOP

### FLAT TOP MUDGUARDS

Parlok HD Flat Top mudguards are available in a wide range of sizes, suitable for various demands. This type of a mudguard is used in, for example, delivery trucks.

**Many sizes available, please check with the factory!**

## MUDFLAPS

### FLAPS FOR EVERY NEED

Parlok introduces a flexible mudflap range for the use on mudguards and in the rear of the vehicle for protecting other traffic from waterspray and objects thrown off by the vehicle. Products are 100% recyclable with excellent weather and chemical resistance and they are strong against wear and tear. Option for logo and other prints.

## BRACKETRY

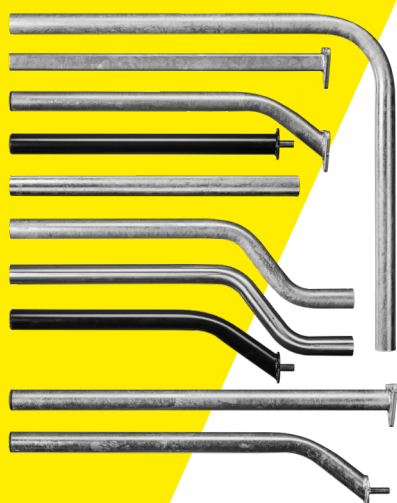

### MANY OPTIONS FOR MOUNTING

Parlok can offer a wide range of various solutions for mounting the mudguards, starting from support tubes and extending to always suitable mounting bracket option based on customer requests. This way you can always rely on Parlok as a supplier of the whole variety of accessory.

Brackets can be ordered as pre-installed to the mudguards or separately if you prefer your own assembly. The product range covers different bracket types that can be installed either through slots or the drill pattern of your choice. All our brackets offer a wide adjustment range, which makes is very easy to install the brackets onto the vehicle.

## TUBE STAYS

### VARIETY OF TUBES AVAILABLE

We can provide a wide range of powder-coated tube stays with diameter 42 mm for various mounting conditions.

Tube stays are available as black powder-coated or zinc-coated, or even as stainless steel for a more demanding environment. If you can't find the option you are looking for in the product range please ask our Sales Team. We also deliver bushings for all the tube stay versions.

**Please ask for more options!**

## TOOLBOXES

### STAND OUT WITH THE TOOLBOX

The Parlok toolboxes are made of high quality polyethylene (PE-HD), a 100% recyclable material. They are light in weight, easy to fit on to a vehicle and we offer a wide range of sizes.

The toolboxes are lockable with a multipoint rotary lock or with accessories for a padlock. Available in black and silver, some sizes also in red and army green.
